

President's Message

Mike Rotolo
Chamber President

If you attended our Installation Dinner on March 3rd you would have experienced a little bit of El Segundo in its younger years. To commemorate the 100th year of business in El Segundo, we met on historic Richmond Street for dinner at a quaint banquet facility not too many folks know about, and strolled across the street to the Old Town Music Hall for our program. There, I took the oath to be your Chamber of Commerce president for this year, and I am honored to serve our business community. For those who could not attend, below are some excerpts from the speech I gave that evening which I hope will give you a little history as well as an idea of my views

and visions for the year.

First of all, I want to thank Lily Craig for guiding the Chamber so well for the past

two years. She has brought about some great changes for our organization and knows how to make things happen. I am happy to say that Lily remains on our executive committee.

My first involvement with the Chamber was in the mid 90's. I was living here but working in Orange County at the time, thinking – wow- wouldn't it be great to work close to home. I started attending Chamber mixers and met some great people while finding out quite a bit about

President - continued on page 2

A note from Marsha

I have always been pretty “service oriented” which I thought came from spending 17 years in the hospitality industry. However, as I watched our 9-year-old daughter order her 5-year-old twin sisters around, I realized that my service background came long before I first stepped behind the front desk of the Hyatt Regency Indianapolis. I remember my older sister, asking me to go fetch her Donny Osmond pillow or a glass of Tang. She always said she would see how long it took me and I ran as quickly as I could to retrieve that glass of orangey stuff to really please her. In hindsight, I don't think she cared if I exceeded her expectations. I think she just wanted to give “Donny” a hug with as little effort as possible.

In today's difficult economy, service is more important than ever. And a great example of exceptional service can be found right here in Downtown El Segundo. Do you know you could go out to eat in our beautiful downtown for a month and a half and never repeat going to the same restaurant? It never ceases to amaze me of the exceptional service I receive from our local restaurants. Recently, I wandered in Second City Bistro as their new homemade bread was coming out of the oven. After my first bite, I thought I had died and went to heaven! If you haven't been in Second City Bistro lately, stop in for lunch or dinner...you won't regret it.

I also had the pleasure of a wonderful lunch at Deluca Trattoria. Service was great and I am still having dreams about their Pollo al Limone. Our Parade Committee met recently to start work on the 2011 Holiday Parade at The Tavern on Main. Again, exceptional service, great food and a wonderful little room off the main room which is perfect for meetings and small gatherings.

A week or so ago, I was feeling a bit under the weather. A friend suggested the Chicken Lime Soup at Good Stuff. Wow...I felt like a new person after that warm and

Marsha Hansen
Executive Director

scrumptious soup. You also might want to stop in El Segundo Fish Company for great selections and wonderful service as well as Harry O's. And don't forget, Cooke's Market has a great selection of ready to eat choices and wonderful salad bar.

Our Chamber Volunteer, Vicky Webb has been hard at work on a Downtown Dining Guide for the past few months. This comprehensive guide including restaurant descriptions, websites as well as menus will be available at the Chamber office for your reference. We will also have copies of the Downtown Dining Guide for your home and office so when those cravings hit, you will know where to go!

For our wonderful restaurants located in other parts of El Segundo, don't worry...I'm on my way to experience your exceptional service and fabulous food. In fact, I think I am far enough away from that New Year's resolution to start eating out again and enjoying our restaurants. I encourage all of you to join me...treat yourself, go out to lunch or for a fabulous evening right here in El Segundo.

Marsha Hansen, Executive Director

President continued from front page

El Segundo business. Opportunity arose for me in 1997 and I began working here for TG Construction and stayed involved with the Chamber. Over the years I have really gained an appreciation for our diverse business community I am proud to be involved with this Chamber.

So why did I want our Installation Dinner to be held on Historic Richmond Street? That is where El Segundo Business all began! 100 years ago The Standard Oil Refinery was born- back when crude oil prices were a staggering 35 cents a barrel! Their 600 employees processed 15,000 barrels a day compared to today's 250,000. With the refinery, came businesses to serve those working and living in this little industrial sea-side town. Right on this very 100 block of Richmond Street in 1911, Martin & Ellis became the first store in town. They sold everything from cigars to tools. Also on this street was the first barber shop in town operated by Floyd Carr Sr., the father of our very own former mayor Floyd Carr who still serves our community. Richmond St. also was home to a Piggly-Wiggly, Douglas Mortuary (Southeast corner of Richmond and Franklin), City Hall (across the street at the Northeast corner), and of course the State Theater which is now our beloved Old Town Music Hall. A song was written in 1914 called "El Segundo by The Sea" to help attract land purchasers to our city. A flyer issued with the song stated "Other big industries are arranging to come. El Segundo will be a great hive of industry, a happy and prosperous home city, with constantly increasing realty values". Well, those folks really nailed it. Look at what we've grown to become!

As history progressed, so did business. In 1941 American Motors built the Nash automobile plant. In 1955 Hughes bought that building for \$3M, and now Boeing builds satellites there. Jack Northrop was also building airplanes in what is still the world's longest wooden building- a half mile long that now is where Northrop Grumman builds fuselage sections for the F/A-18 Hornet among other things.

In 1960 The Aerospace Corporation was born along with the L. A. Air Force Base bringing opportunity to so many other feeder businesses and driving such huge projects as the Hubble Space Telescope and the World's GPS system. Since then we've seen so many business successes- Continental Park, Jim & Jacks Automotive, Raytheon, Xerox, Pacific Corporate Towers and all the firms there, Mattel, International Rectifier. And recent additions such as British Telecom, Karl Storz, Tesco (the parent of Fresh & Easy Markets), Rhythm & Hues, all of our wonderful hotels, restaurants, and merchants; and

2011 El Segundo Chamber Installation Dinner & Award Recipients

The Chamber's 2011 Board of Directors is sworn in by Mayor Eric Busch at the Old Town Music Hall during the 2011 Installation event.

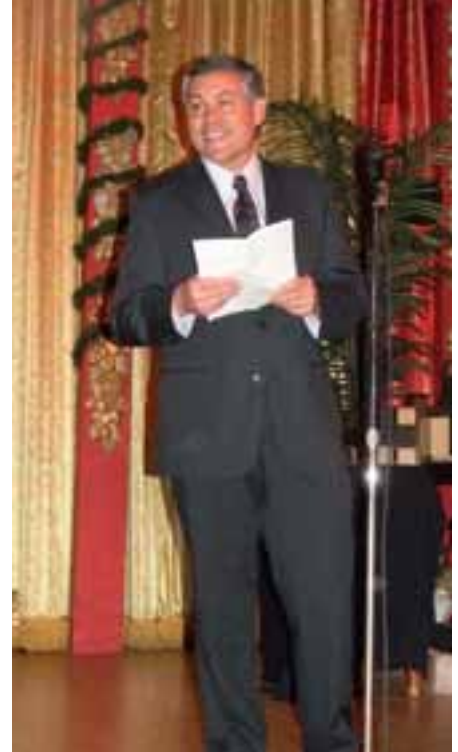

Downtown Business of the Year Old Town Music Hall

The Downtown Business of the Year Award was presented to a hidden gem that graces Downtown El Segundo! One of the last vestiges of a bygone era of entertainment, the Old Town Music hall opened Downtown in 1968 at the site of the 1922 El Segundo State Theater. The Old Town Music Hall is a concept that started in 1958 by Bill Coffman and Bill Field with the purchase of the Mighty Wurlitzer from the Fox West Coast Theater in Long Beach, California. Renowned as the home of the Mighty Wurlitzer pipe organ, this one-of-a kind venue features showings of classic and silent films from a variety of genres, live organ concerts, ragtime and jazz piano concerts and more. In

addition to the history they keep alive, the Old Town Music Hall is responsible for bringing in thousands of visitors every year, introducing them to the restaurants and the charm of Downtown El Segundo. The Old Town Music hall is a 501C3 organization. It's donations that keep the doors open and the music playing. We encourage you to support this wonderful treasure and put the Old Town Music Hall into your corporate giving programs. Old Town Music Hall is truly one of El Segundo's most important and enduring cultural landmarks.

Volunteer of the Year Vicky Webb

This year's Volunteer of the Year award was being presented to a person the Chamber knows they can always count on. Many of you have seen her at numerous events however, may not know the impact of the work she does for the Chamber. We know we can call her at anytime and she will show up with a smile on her face and do anything needed. From working at each event to walking the Downtown with flyers, posters, and directories...she shows the kind of dedication and volunteerism that help make organizations successful. She even spent many, many hours compiling a Downtown Dining Guide complete with

2011 El Segundo Chamber President Mike Rotolo with TG Construction addresses the sold-out crowd at the 2011 Installation event.

menus from all of the restaurants, a map showing locations of the restaurants and descriptions of the restaurants. We plan to distribute this wonderful resource within the next several months. We congratulate our 2010 Chamber Volunteer of the Year, Vicky Webb.

Kathy Rutledge

Traditionally, the Chamber has had one recipient for Volunteer however, in a year with staffing challenges in the office, a great group of volunteers was of the utmost importance. Another person jumped in to help as we made our way through a very busy fall with minimal staffing. She was an important part of the Chamber staff many years ago and when support was needed, she was able to join us with that wonderful smile and

President continued from page 2

our diverse manufacturing, creative, and other businesses in Smokey Hollow. And how some things change- a beautiful and vibrant shopping center, Plaza El Segundo is born from Honeywell's former plant, a military entrance processing station replaced an aging manufacturing building.

Smokey Hollow is being looked at by businesses wanting to move here because of our locale, the vibe that El Segundo has. Our Planning Commission and City Council recently modified some zoning restrictions which allow for more office use in Smokey Hollow. I recently spoke with the owner of a small post-production company who is purchasing a building there and asked him why he chose El Segundo. He said he is on the West Side now and there has been talk about great creative spaces here. A financial planner is moving here soon, and Apollo Interactive, a digital advertising and marketing company recently relocated their office of 20+ here from Culver City as well.

Wow! What a place to do business!!

So what's in store for the next 100 years of business in El Segundo? Well my fellow business leaders, it's whatever we want it to be! We know that we are geographically poised to attract and maintain a plethora of businesses. With the national trend of people wanting to live closer to work, our great residential community along with our renowned school district will continue to attract a great workforce to this area. In looking back on the history of business here while preparing this speech it was evident that business has grown steadily in this town, and I for one look forward to what the future will bring.

My goals for this year are the following:

Continue to build a strong membership base and find more ways to better serve you, our members.

Focus on our Downtown and create

a committee comprised of downtown merchants, City leaders, and possibly residents that will develop a marketing and business attraction plan for our downtown to help it thrive in the coming years.

Renovate our Chamber offices with a much-needed upgrade for our façade and interior. We are the face of El Segundo business and we need to look like it.

So why are we all member of this organization? I'd like to think it's because we believe that networking through our Chamber is a great opportunity to be a part of the incredible business community that is El Segundo. I look forward to serving you this coming year and encourage you to call Marsha and ask how you can get more involved with YOUR Chamber.

Think... THIN!

"Thin Client" computing

...is a less costly, safer technology for your business. When PC's need upgrade or replacement do it with workstations that require no involved setup, maintenance or ongoing support rather than costly to maintain pc's. Imagine... zero dollars to support and maintain these workstation!!

Thin Client Computing...

- Frees employees from computer problems.
- Same Windows desktop users understand.
- One system update and all users benefit.
- Provides a highly secure & safe network.
- Workstation support costs go to zero.
- Has been around for decades*.

*Fortune 1000 companies are aware this technology because it saves time and dollars. Go ahead... do a Google search: "Thin client computing"

Costs & Returns

To take advantage of "thin client" computing your company must be ready to make a capital investment in server infrastructure.

If your company has 10+ employees you'll see:

- Reduction in ongoing Hardware costs by 40%.
- Reduction in workstation support costs by 95%.
- Reduction in general support costs by 70%.
- Reduction in worker downtime by 88%.

Companies, in documented case studies**, that moved to thin clients as part of their regularly scheduled upgrade/replacement cycle saw huge reductions in costs, increases in productivity and unprecedented return on investment. Now, why don't you know about this solution?

**In one study, investment in thin client technology of 100 users totaled \$22,893 over three years and delivered \$121,116 in benefits. This study showed an ROI average of 421% and a pay back of investment in 10.6 months once the solution was deployed.

When ready To learn more....

positive attitude to help serve the needs of our membership. From purging old files and items in the office to answering the myriad of questions and requests the office receives every day, she was a joy to have at the Chamber. We would like to thank and congratulate our second 2010 Chamber Volunteer of the Year, Kathy Rutledge.

Member of the Year Joe Harding

Many of us might think that as a Hotel General Manager, you are required to be involved in the community. The Chamber's Executive Director, Marsha Hansen, who was in the hotel industry for 17 years prior to joining the Chamber quickly debunks this myth. According to our Executive Director, it is up to each Hotel Manager to determine how much he or she will be involved with their communities. Through her years in the hotel industry she has seen many levels however, none that compares to the involvement of this year's Chamber Member of the Year. Joe Harding not only provides valuable resources for our entire community, he also gives of himself. In addition to his involvement on the Chamber Board, he is also on the

El Segundo Educational Foundation, a member and Past President of Rotary, the Director of RYLA which stands for Rotary Youth Leadership Assembly, is a seven-District Trainer for the entire Los Angeles area Rotary District as well as supportive of many other community groups just to name a few. He not only thinks out of the box...it's hard to find his box. That innovative thinking along with his positive and "can do" attitude makes him unique and much appreciated. Congratulations to 2010 Chamber Member of the Year, Joe Harding.

Business of the Year Award Chevron El Segundo Refinery

The 2010 Business of the Year Award was presented to Chevron El Segundo Refinery. This is not just for the contributions Chevron has made to the community in the last 12 months but for the last 1200 months as they celebrate their 100th Anniversary in El Segundo. The history of Standard Oil and Chevron's involvement in the community runs deep.

As mentioned in the El Segundo 75 years Anniversary Book, in the early days of El Segundo the same leaders who ran the refinery most likely ran the Chamber of Commerce. There are also several parts

Alex Arroyo, Joey Russ and Anthony Rotolo from El Segundo Boy Scout Troop 762 presented the flag ceremony and Pledge of Allegiance at the annual Installation event.

highlighting Standard Oils involvement in those early days. The book mentions the opening of the first library in El Segundo located in the El Segundo Hotel and says "Standard Oil Company paid the first year's rent for the library space". Another story tells of Harriett Lawler who was employed in 1911 as secretary to Standard Oil's first General Manager and how she founded the Childrens Hospital Auxiliary around 1920.

The company has always embraced community spirit allowing their employees to become deeply involved in the volunteer work that makes up our community and they continue to do so today with programs such as the \$1 million dollar "Energy for Learning" grant to support science, technology, engineering and math educational programs at 15 South Bay schools, support of local service organizations through projects such as Rotary's Movie in the Park, Tree Musketeers Arbor Day plantings and more. A recent donation of land by Chevron is enabling a new lifeguard station for El Segundo beach. And every year you can see hundreds of Chevron employees and their families making their way down Main Street in the Holiday Parade enjoying this community they love. We thank Chevron for "starting it all" in this little patch of sand dunes in 1911 and for all they have given to our community over the past 100 years.

The 2011 Installation Event would not have been possible without the generous support of Scott & Liz Reed from Second City Bistro for donating a fabulous dinner, Beverly Maggio & Tony Barthel with Sounds Like Real Estate for the use of 139 Richmond Street, Bill Fields & Mel Horowitz with the Old Town Music Hall for their beautiful theater and for entertaining the guests, Jeff & Patty Brown from Richmond Bar & Grill for handling our bar and many planning details, Marisa Scarda & Mario Sandoval with Natural Simplicity for the incredible centerpieces, Mike Rice and Linda Cohen with the El Segundo Concert Band for their beautiful music, Carl Jacobson and Jeff Walker with the Automobile Driving Museum for taking us back in time with a vintage car parked in front of the venue, Sue Carter & Bruce Carter for their help with our historical presentation, Nelson Rios with Advanced Party Rentals and Lily Craig & Chevron for design and printing of materials for the event, equipment rentals, preparing the event for the crowds and more!

In addition, we would also like to thank our 2011 Installation Dinner Sponsors:

2010 Vote Records: Holding Elected Officials Accountable

The 2010 Vote Record: The El Segundo Chamber of Commerce in conjunction with the SBACC tracked votes on 23 Potential Laws for Senator Alan Lowenthal, Senator Roderick D. Wright, Assembly Member Steven C. Bradford, Assembly Member Warren T. Furutani, Assembly Member Ted Lieu, Assembly Member Bonnie Lowenthal, and Governor Arnold Schwarzenegger.

In 2010, The El Segundo Chamber of Commerce in conjunction with the SBACC tracked 23 potential laws (bills) that impact over 53,000 businesses throughout the South Bay region. Regional legislators received letters communicating the positions on all 23 bills. The Chamber, working with its regional advocacy coalition the South Bay Association of Chambers of Commerce (SBACC) lobbied during the 2010 legislative session for our legislators to OPPOSE 12 bills and SUPPORT 11 bills.

“This was a difficult year for our business community. We need to continue to work with our legislators in order to help our business community rebound by creating jobs and positive economic growth,” stated Marsha Hansen, Chamber CEO/Executive Director. “These vote records demonstrate how our elected officials voted with our business community and we can continue to hold them accountable. This year needs to be the year where our elected officials side with business in order to get our region back on track.”

The official positions on each of the 23 bills have been available online at www.SBACC.com including summaries and explanations of why each bill was opposed and supported.

To reach the “percentage FOR pro-jobs legislation,” the tallied the number of times our legislators voted for the position and divided that total by the total number of potential new laws in which each legislator voted. A potential new law is not figured into the vote record percentage if a legislator, for whatever reason, did not vote or if the potential new laws died before the legislator had an opportunity to vote.

Summary of Votes

	FOR pro-jobs legislation	AGAINST jobs legislation	Percentage FOR pro-jobs legislation
State Senator Alan Lowenthal	3	9	25%
State Senator Roderick D. Wright	4	6	40%
Assembly Member Steven C. Bradford	4	7	36%
Assembly Member Warren T. Furutani	4	7	36%
Assembly Member Ted Lieu	5	7	42%
Assembly Member Bonnie Lowenthal	4	7	36%
Governor Arnold Schwarzenegger	5	4	56%

2010 Vote Record – In Depth

Not voting = Elected official did not vote.

N/A = Potential new law died before elected official had an opportunity to vote or in the case of the Governor the potential new law did not reach his desk.

El Segundo Chamber

2011 Community & Business Directory

Grandpoint Bank celebrated it's grand opening with a wonderful open house and ribbon cutting. They are located at 1960 East Grand Avenue, Suite 1200.

Many have received the 2011 Community & Business Directory however, for those who have not yet received a copy, we have placed the Directory with this mailing of the Business Report. If you need additional copies, please contact the Chamber at 310/322-1220. Downtown Guides are also available for distribution. If you would like a stack of Guides to display at your business, give to employees and/or clients, please contact the Chamber and we will bring them to you!

Music on Main located at 237 Main Street celebrated the opening of their new music studio with a ribbon cutting.
